COMMUNISTS SEEKING TO FOUL UP HOT GOVT.

THE COLD WAR almost sounds attractive to Edmontonians sweltering in the season's hottest weather. Strategic weapons in the struggle to keep cool include sun suit such as Mrs. Betty Jamison of the Highlands wears to hang out the family washing.

KEEPING COOL inside and out is the motto of these youngsters. Victor Danyluk, 12053 67 Street (left), and Orvis Bambush, 12145 67 Street, 12-year-olds. Absolutely nothing in the way of wearing apparel from the waist up keeps body temperature down. A couple of heaping vanilla ice cream cones completes weather-conditioning on human interior. This sort of thing isn't hard to take.

SPLASHING THEIR WAY to coolness is the happy method adopted by this group of kiddies at 95 Street Gyro Park playground. Shallow wading pool is just what the doctor ordered for heat-weary little people on a hot afternoon. If there's a way to beat this heat bogey the kiddies are certain to find it and they're doing it in this picture. City playgrounds help children over the summer rough spots.

UNHAPPIEST MAN during any given heat wave is the fellow with a generous share of himself. Pete Yabum, a holiday visitor from Mundare, admits the heat is killing in this eloquent gesture of moping the ever-perishing brow. —Photos by Blaud

Provinces Again Ask Rate Probe

OTTAWA, July 20. — (CP) — Seven provinces reiterated today their demand for a Royal Commission to review the principles that underlie Canada's freight-rate structure and, as an alternative, proposed to go forward with a direct appeal to the federal government.

In an appearance before the Federal cabinet, five premiers and two provincial cabinet ministers formally lodged an appeal against the Board of Transport Commissioners awarded the railways a 21-per-cent increase in freight rates.

The delegation — representing every province but Ontario and Quebec — described as "unacceptable" the federal steps in revamping the transport board, ordering it to undertake a general inquiry into the freight-rate structure and rejecting the provincial request for a royal commission.

The plea of the matter is that the board has not the authority nor has the government power to clothe the board with authority to perform the task of formulating an "improved, uniform, basic freight rate structure" (as proposed by Mr. King).

The only body to which the committee suggested that the provinces "inquire into the whole problem of transportation in Canada" (Continued on Page 2)

American Tourist Stoned To Death

WASHINGTON, July 20. — (AP) — Stephen Haas, Philadelphia resident, was stoned to death Sunday afternoon in Cairo by an Egyptian mob, the state department announced yesterday.

Thorez Proposed As New Premier

PARIS, July 20. — (CP) — Communists proposed today that their leader, Maurice Thorez, be designated the new French premier to head a coalition government of Socialists and Communists.

Thorez was the first majority party leader to call on President Vincent Auriol, who is searching for a new premier. France's middle-of-the-road government, headed by Robert Schuman, toppled last night after a dispute over the army's budget.

At the same time officials announced that Paul Bover and Billy Wynn, veteran Calgary players, had been signed to 1946 contracts.

John Aguirre, giant tackle from the University of Southern California, is the new import. Officials said Aguirre would arrive in Calgary later this week ready to play for the club. He played with Honolulu Warriors, a professional club last year.

Following Thorez was Andre Colin, secretary general of the Movement Republican Populaire group with 153 members in the assembly.

In CABINET

Communists also called upon Auriol. They have 103 members in the assembly, and, like the MRP, were represented in the Schuman cabinet.

Auriol was expected first to try to find someone who could reunite the "third force" coalition of Movement Republican Populaire, Socialists and Radical Socialists.

Until they fell out last night on the army issue, these three political groups had united in the old government. (Continued on Page 2)

Bishop Sentenced To 11-Year Term

LONDON, July 20. — (AP) — The Yugoslav News Agency Tanjug said last night that Mgr. Peter Chule, Roman Catholic Bishop of Mostar, has been sentenced to 11 years in prison for aiding enemy occupation forces in Yugoslavia during the second World War. The agency said that three priests and five nuns tried with the Bishop at Sarajevo were sentenced to terms ranging from eight years to six months.

LAST-MINUTE NEWS

Canadians, Yanks Reach Parley

LONDON, July 20. — (CP) — The foreign office announced today that Canadian and United States military experts have arrived to take part in defence consultations of the five Western European Union states at The Hague, the Netherlands.

Aussie Cricketers Win Match

LONDON, July 20. — (Reuters) — The Australian cricket tourists defeated Middlesex by 10 wickets in their match which ended at Lords today. The final scores were Middlesex 203 and 135, Australians 217 and 22 for no wickets.

The Australians experienced little difficulty in winning the match although from the position they were in overnight, Middlesex did well to save the innings defeat.

Yanks Bolster Air Strength

LONDON, July 20. — (AP) — The deputy United States consul in Glasgow said today the United States aircraft carrier Sicily will land 75 jet-propelled Shooting Star fighters in Scotland August 4 to bolster American fighter strength in Germany. Another 16 jets are en route to England from the United States by air.

An Impressive Program

The program upon which the Manning government will continue the ground work of August 17 is straightforward and impressive.

Based pretty substantially on the recommendations of the excellent Judge report, this platform promises a continuation of the business administration which Mr. Manning and his colleagues have given this province, in a general way and in many particular ways, since their assumption of office.

One of the important items in the government's program is the expansion of the development of the oil resources.

The basic policy with regard to the oil discoveries in the Edmonton district is unquestionably sound because it has led, in a notable way, to the utilization of that vital resource.

That must be the first requirement of any natural resources policy, that the natural wealth be put to work. That is the final test of any such policy. And the proof of the effectiveness of Alberta's oil policy

lies in the fact that it does get the oil out of the ground, to enrich Alberta and Alberta people.

The pledge of assistance to farmers is also of high concern. What Alberta farmers need more than anything else at this juncture is the placing of the sale of their coarse grains under the wheat board and the elimination of freight rate differentials.

Development of power resources, another plank in the government platform, is of urgent consequence in the encouragement of new industries, a greater production which is the only source of wealth. Cheap power is on a par with cheap transportation in the expansion of production.

Increased provincial grants to education, the improvement of the educational system, more and better roads, a selective immigration policy, all these are part of the program offered to the public by the Manning government.

All are essential to the well-being of Alberta and Alberta people.

More Hotel Additions?

Tentative plans of the Macdonald hotel to add between 140 and 300 rooms to its capacity will offer encouragement to those thousands of Edmontonians who see the value and profit in increased tourist business.

This projected enlargement, announced by Mayor Harry D. Ainlay, will add to the tourist potentialities of Edmonton in a substantial way.

So deficient is Edmonton in hotel accommodation that the hotel business can hardly be considered a competitive enterprise any more.

Mr. Bracken Will Resign

There will be general regret throughout Canada that the Hon. John Bracken proposes to resign as leader of the Progressive Conservative party.

Mr. Bracken is known to all Canadians as a sincere and capable man, following a distinguished career in Manitoba politics, was prevailed upon to assume the Tory leadership under the most unpromising circumstances it was possible to imagine.

He consented at considerable personal sacrifice, and, along with his duties of leadership, he took up all the burdens of factional dispute, the weight of constant criticism and the disappointments that are bound to fall to the head of a party, however great, which is out of power.

A factual estimate of Mr. Bracken's leadership would come with better grace from the official spokesman of the party than from a newspaper which has frequently been critical of his policies.

But Canadians of all political opinions will agree that he gave his party all his energy and all his capacity and there is no reason to wonder why his health could not endure the strain.

Mr. Bracken was valuable to the Progressive Conservative party in his insistence upon recognition of the fact that a modern political organization must be more than an instrument of reaction.

It was through the efforts of himself and his supporters that the Progressive Conservatives threw off the charge of negative thinking and emerged from the Winnipeg convention of 1942 as a positive force in Canadian political life.

So now Mr. Bracken will retire. Even in opposition, he has served this country through difficult, trying times and his role as vital and praiseworthy as though his seat had been in the government benches instead of across from them.

ODDS AND ENDS

It Worked in the Park; Why Not in Drinking?

I see by the paper that the hotel owners in Edmonton are going to apply to the provincial government for an order legalizing mixed drinking in beer.

But to prevent the possibility of becoming a political issue in the election, they will refrain from making their request until Aug. 1.

Well, I hope they get their wish.

It has always been WEIR struck me as a barbarous sort of thing that where men and women may be together, booze together and play games together, they have been forbidden to quaff together the non-boozy ale which is said to split the heart of man, but which only makes me sick.

I am opposed to unnecessary and unnatural restrictions on drinking because of these silly precautions only emphasize the importance of it and cause people to believe that something which is fenced in so elaborately is really worth having.

What I mean is that when the consumption of beer is restricted in any layer of layer of regulatory laws it becomes much more desirable than its unrestricted use and people eat really want.

That the thing is right, the production of a bottle was the signal, not for two or three men to drink, but for a rare to see who could get the most down the bottle.

People drank methylated spirits and whisky and brandy and rum were full of holes with rough edges and sharp corners.

But the worst and most vicious product of prohibition was the conviction of sin that accompanied drinking.

That law, that puritanism that frowns in every eye of us came out of the underworld of the underworld and the frowning of a few quick ones became, not just a social amenity, but a gesture of devotion to all morals.

It was bad business, because, as the saying is, "the more you drink, the more you want."

Smiles

The husband after a very tiring day was enjoying his pipe and reading the evening paper. The wife, who was pouring over a crossword, suddenly called out: "Henry, what is a female sheep?"

"Quite easily," he replied, "a female sheep is a female sheep."

"On the right," he said, "form platoon!"

The recruit carried out some of the most of which he had heard from his speechless. He looked at the sergeant for a moment—two moments—then he spoke.

"All right," he said, in tones which were a mixture of sheepish and sheepish, "now take your partners for the Lancers."

Pleased With Edmonton

Editor, Bulletin.—As recent visitors from Port Arthur we found much to admire in your fair city. We noticed the built-up, good shaped freeways, the new hotel, indications point to a great future for Edmonton.

One thing the writer particularly noticed, however, was the extreme lack of courtesy shown by bus and street car operators towards motorists.

When approaching intersections, it is to be noted that drivers of street cars carry on into plain with little regard for those who are waiting to cross.

Start and turn into and across traffic, and it is a shame to find that drivers of street cars carry on into plain with little regard for those who are waiting to cross.

Close Vote Recorded

The vote was close—much closer than it was in the election against Truman, which was purely sectional. Truman won 94.5 per cent of the vote in the Senate.

Senator Russell of Georgia, the civil rights amendment was carried by only 61.5 against 38.5, with numbers of northern delegates voting to keep the party together.

The debate was passionate, dramatic, and in some ways, at least—deeply moving. For once in a convention one saw a clear picture of the matter in principle.

Democrats Are Now New Party

To write during a convention for publication several days later seems to be a contradiction to modify earlier opinions.

On Wednesday—while saw the fight on the floor between the northern liberals and the southern conservatives, the fight was a full circle in those 13 sweltering hours. The party of the masses and of white supremacy in the South realized the situation in his ideas than in the logic of the political situation.

One can speak, if one likes, of the southern rebellion, but what actually happened was a purge of the southern liberals and the southern conservatives, the fight was a full circle in those 13 sweltering hours. BETWEEN THE AGES
OF 16 AND 60.

The Edmonton Bulletin is now enabled to offer its readers the opportunity of securing through Whalen Insurance Brokers (Alta.) Ltd. a TRAVEL AND PEDESTRIAN POLICY unexcelled in the scope of its coverage and liberality of terms. In this policy are scores of different provisions covering many unforeseeable hazards of public and private transportation and pedestrian travel. The financial protection under its provisions is perhaps the most complete and valuable ever offered... all the more unusual in that it is available to ALL Bulletin subscribers except any person who is blind, deaf or who has lost an eye, hand or foot or limb. WITHOUT examination and without red tape.

AGES 6 TO 75; PEDESTRIANS INCLUDED

For any person from 6 to 75 years the only cost of this sensationally liberal policy is a Registration Fee varying slightly according to the ages of those placed under its protection... \$1 per year between the ages of 16 and 60; \$1.25 per year for ages 6 to 16 and 60 to 75. That is all. There are many benefits for travellers and pedestrians included in the provisions of the Policy, and when the protection is considered in relation to the dangers of daily life in this age of increasing mechanization and speed, it is quickly seen that NO Bulletin reader can afford to delay making application for a policy at once.

BULLETIN READERS and THEIR FAMILIES MEN, WOMEN and CHILDREN

With ONE subscription the policy can be extended to ALL members of a Bulletin reader-family living at one address, except any person who is blind, deaf or who has lost an eye, hand or foot or limb. Thus can be lessened the financial terrors of the accident that can come to ANY family without a second's warning. The costs for medical attention, for hospitalization and for loss of earning power... these in many cases wreck the economic foundations of whole families—an insupportable burden piled upon the original tragedy. This financial collapse can be avoided; the worry, tension and despair can be, to a great extent, done away with. You owe it to yourself and your family to secure this protection NOW.

Risk of accident in traffic to both riders and pedestrians have never been greater than today. No one needs to be told of the factors which have caused this increase in risk. Your daily newspapers tell you the story of deaths and injuries every day. And no one need to be told that hazard is no respecter of persons. ANYONE can meet with accident any minute, and SOME of us do, EVERY minute. But, WHETHER OR NOT ill-fortune strikes, how great the peace of mind of those who are covered by such a sensible and reasonable policy as this one The Edmonton Bulletin is offering its readers! All who realize the value of this Policy will come under its protection without delay.

ARGENTINA'S QUINTUPLETS, five years old this week, swing on gate leading to their home in Buenos Aires. Born to Mr. and Mrs. Franco Diligent on July 15, 1943, the healthy-looking children are Carlitos with Maria Fernanda, Maria Cristina, Maria Ester and Franco, Jr.

Truman to Ask Price Curbs on Food, Meat

By Edward V. Roberts
WASHINGTON, July 20.—(AP)—President Truman will make a personal appeal to the special session of Congress for immediate price controls on meat and some other basic foods, it was learned today.

Usually well-informed - White House sources said Mr. Truman will go to Capitol Hill to deliver his message either Monday, when the summer session opens, or the following day.

These sources said the president will ask Congress to restore price controls at once on some of the commodities and give him authority to impose them on others if he sees fit. This "veto-proof" control was what Mr. Truman recommended to Congress last November, but the idea was rejected by the Republican leadership at the beginning of another CFA.

Mr. Truman's message will be brief, these informants said. However, it is expected to touch on most of the nine-point legislative program which the chief executive outlined last week in Philadelphia.

In accepting the democratic presidential nomination, Mr. Truman said he would ask for legislation on housing, civil rights, displaced persons, inflation, social security, national health, minimum wages, public power and federal aid to education.

Stringham Named To Oppose Tanner

Bryan W. Stringham, 39-year-old Cardston barrister, was chosen as Liberal candidate for the Cardston constituency at a nominating convention held there Monday.

Mr. Stringham is president of the Cardston Junior Chamber of Commerce, and also president of the Mutual Improvement Association, a Mormon organization.

Hon. N. E. Tanner, minister of lands and mines, is holder of the seat at present.

Liberals are nominating today at Warner and will name candidates for Calgary at a convention to be held tonight.

Girl With Broken Leg 32 Hours on Mountain

VANCOUVER, July 20.—(CP)—Fifteen-year-old Dolores Dash of Victoria was rescued after a harrowing 32 hours spent up on Marlborough Heights mountain.

She was taken to hospital here suffering from a compound fracture of her right leg. She had fallen 50 feet Sunday while trying to jump from one ledge on the mountain to another.

She and three companions one of whom was a boy, were seen by a search party at 11:30 a.m. Sunday. They were rescued by a helicopter and taken to hospital.

They remained on the perilous heights all night and until Monday when a rescue party, flown from here, climbed to their rescue. Two companions returned to Vancouver.

Clyde Shipyards Boom But Slump Looming

GLASGOW, July 20.—(CP)—Scottish industry now-days is full of puzzle: Full employment in some lines, a scarcity of manpower in others, and in a few, pockets of unemployment. Shortages of materials complicate the whole scene.

Generally speaking, business is booming. The Clyde with its 23 shipyards remains the most important shipbuilding region in the world. Ship orders are worth about £100,000,000 (£40,000,000) and the yards are full of work. The yards are full of work. The yards are full of work.

But there are signs of a slump. The yards are full of work. The yards are full of work. The yards are full of work.

CONFEDERATION NOT RECOGNIZED

ST. CATHARINES, Ont., July 20.—(CP)—Western Canada generally is foreign territory as far as one local citizen is concerned.

I. S. Patterson, who recently moved here from Winnipeg, encountered this geographical phenomenon when he parked his car what seemed to be an unusual driveway.

On his return he found this note on the windshield:

"Just because you are in Canada, don't consider you own it. This is a driveway. The car still here is 'foreign' Manitoba license plates."

35,000 Off

For Ontario

Get-Together

WALKERTON, Ont., July 20.—(CP)—The "Bruce County special" which left Vancouver last Friday will arrive here tomorrow morning with former county residents for a two-week reunion.

At least 35,000 persons have indicated their intention of returning to the rich dairy farming county wedged between Georgian Bay and Lake Huron.

Idea for the return, which county officials believe will be the largest ever held in Canada, is that of a Vancouver man, Edward M. Watson, formerly of Paisley. His suggestion was welcomed by Bruce County council with a vote of 10-0 for publicity purposes.

Since the reunion campaign began, more than 15,000 pieces of literature have been mailed to former Bruce County residents.

Dog Which Tore Scalp From Child Escapes Custody

SAULT STE MARIE, Ont., July 20.—(CP)—A dog which tore the scalp of a one-year-old child was at large today in the Echo Bay district 22 miles east of here and which it collided with another auto.

The dog, a part Collie and a family pet for nine years, attacked Donald Watson Sunday, tearing his scalp from his head and biting the child's face. The dog was seen barking in place but hospital officials said his condition is critical.

Calgary Housing Plan May Get Test In Supreme Court

CALGARY, July 20.—(CP)—The Supreme Court of Canada will be asked to decide if Calgary has authority to spend \$200,000 to provide services for a low-rental housing project at the old municipal airport, S. H. Adams announced yesterday.

Court action was started recently by Mr. Adams' clients, A. W. Ames, ex-serviceman taxpayer, and the Calgary Property Owners' Association. An application for an injunction against the city using money was turned down by chambers, and the appeal court.

Tenders to build the 300 houses were invited yesterday, to be in Aug. 2.

Mr. Ames objects to the city spending the funds without submitting a money-by-law to rate payers.

Victim in 'Spook' Murder Is Buried

Funeral Service Is Held For Teamster Slain in 1929

CALGARY, July 20.—(CP)—The body of a 66-year-old Calgary teamster, murdered in March, 1929, has finally been buried.

Funeral service was held here yesterday afternoon for Thomas Charles Hall, whose mutilated body was discovered July 10 hidden under the back bedroom floor of a "haunted" five-room Calgary cottage. The body is believed to have lain in a shallow excavation under the floor of the one-storey, brown building for 19 years.

2 HOLES IN SKULL

Two holes were found in the skull of the heavily-built six-foot teamster when police were called to the cottage 10 days ago by an excited owner of the cottage. He found he body while investigating a weak spot in the floor of the bedroom. He started to check the floor after he had been made restless by his children's complaints that the building was filled with "spooks" who poked odd, clanking fingers in their backs.

While the funeral was in progress, police continued their search for new clues to the murder, which they said may have been motivated by robbery. Thomas is reported to have owned a considerable number of old cars and to have owned some property in the United States.

SEEK NEIGHBORS

Having failed in efforts to locate an alleged "phony" newspaper, editor of Hall's death in an automobile accident in North Dakota in the summer of 1929 or 1930, police are concentrating on searching out people who lived near the cottage in 1929.

A mysterious newspaper account is reported to have appeared in a Calgary newspaper 18 or 19 years ago saying that Thomas Hall and one of his sons were killed in an automobile accident in the U.S.

However, intensive search of newspaper files have failed to disclose the item.

Date of an inquest into the death and the findings of an autopsy held last week, still have not been announced.

Big Railway Fair Opens In Chicago

CHICAGO, July 20.—(AP)—The Chicago Railroad Fair, a huge display of rail transportation, covering 50 acres along a mile of Lake Michigan, opened today in the biggest rail centre in the United States. The exposition, sponsored by 38 carriers, commemorates the centenary of the first steam train from Chicago.

KIDS GO BUGS OVER BUGS

BALTIMORE, July 20.—(AP)—The fiery market brightened considerably today and kills here are scrambling to cash in.

Dr. William D. McElroy, biology professor at Johns Hopkins University, is paying 25 cents a hundred for fireflies—dead or alive. A \$10 bonus goes to the kid who makes the biggest haul.

Dr. McElroy thinks firefly "lightbulbs" may contain vitamin K. He wants enough of them to find out if that's right.

For his project, which has the support of the American Philosophical Society, Dr. McElroy says he needs "thousands of them."

The youngsters can't quite believe it's true. They figure it's like being paid for going to the circus.
